

IRIS NOH

irisnoh22@gmail.com | github.com/irisnoh | irisnoh.com

BIO: A full-stack software developer who enjoys photography, cooking and drinking boba tea. Chicago native who is passionate about health, wellness and technology and how those things go together.

TECHNICAL SKILLS

- React.js, React-Redux, React-Saga, JavaScript ES5 and ES6, Node.js, Express.js, jQuery, Python, Flask, Unit Testing with Jest, Vue.js, Authentication Passport.js and SQL.
- Creative Tools: HTML, CSS, Material-UI, Bulma, Bootstrap, Adobe Photoshop, Adobe Lightroom, Adobe Dreamweaver, Procreate, Canva.

EXPERIENCE

Full-Stack Software Development Student

Prime Digital Academy

Minneapolis, MN

August 2019 – Present

Solo Project: *Gachi-Buy*

- There are many shopping list apps out there but not one with the capabilities of sharing that list with multiple users.
- Built out a shopping list mobile first web app in 2 weeks that would allow users to login, create a group and add other users. Users can also create a shared list of shopping items, update when an item has been bought and delete once the shopping trip is over.
- Tools use: React.js, React-Redux, React-Sagas, Node.js, Express.js, Authentication Passport.js, PostgreSQL, CSS and Material-UI for styling.

Group/Client Project: *Rapid-Interface*

- Currently building out a front-end/user-portal for Rapid Interface that interacts with a REST API authentication on the AWS Cloud platform.

Clinical Services Coordinator/Operations Specialist

Virgin Pulse

Minneapolis, MN

July 2016 – September 2019

- Projected and forecasted weekly dashboards for Live Services department leadership team using data reports to look at the effectiveness of marketing and engagement.
- Collaborated with engineering department to brainstorm and update reported data for accuracy and integrity.
- Managed and uploaded all engagement guide outreach campaigns in an auto-dialer system LiveVox daily and relieved consumer reoccurrence abnormalities.
- Streamlined processes across the Clinical Services/Live Services department for nicotine replacement therapy, department users service tickets in ServiceNow, and LiveVox application support.

Student Office Assistant

University of Minnesota – Twin Cities: School of Public Health

Minneapolis, MN

May 2015 – June 2016

- Created electronic promotional advertisements using Adobe Dreamweaver HTML program for UMN websites and posters across the Twin Cities campus.

- Expanded and updated moodle pages for professors and instructors for graduate student courses.
- Handled confidential financial and registration documents with high degree of accuracy.

Student Officer of Student Nutrition Advocacy Collaborative (S.N.A.C.)

Boynton Health Services & School of Public Health

August 2015 – May 2015

Minneapolis, MN

- Implemented strong interpersonal skills through counseling and collaborating with students 1:1 for nutrition check-ups and in-home cooking classes.
- Facilitated large group grocery store tours events of 50+ students.
- Promoted S.N.A.C. on various forms of social media including Facebook and Instagram.
